Adviser to West Coast – Jurong West GRC GROs (Nanyang);

Mr Yeo Hiang Meng, BBM,
President, Federation of Merchants' Associations Singapore
and Chairman, Heartland Enterprise Centre Singapore;

Ms Jeanie Tan, Assistant Chief Executive (Operations)
People's Association

Distinguished guests;

Ladies and Gentlemen,

Helping Singaporean Households – CDCV Scheme Over the Years

1. Good morning. I am glad to see many familiar faces here – our partners, merchants, volunteers and community leaders – as we launch the ninth tranche of our CDC Vouchers Scheme 2026 (June) today.

Support To Get Through Uncertain Times

2. Today, the world has become more unpredictable. Global uncertainties, such as the ongoing Middle East crisis, have affected energy and import costs, raising the cost of living.

3. The Government is journeying alongside Singaporeans amid these challenges. The CDC Voucher Scheme is one practical way we support Singaporean households and local heartland businesses.

4. Earlier this year in January, 1.36 million eligible Singaporean households received \$300 in CDC Vouchers. I am glad to report that 94.5% of vouchers of the January 2026 tranche has been claimed.

- a. Of these, 80.1% has been spent thus far; with about:
 - i. \$151 million spent at participating hawkers and heartland merchants,
 - ii. and \$158 million spent at participating supermarkets.
- b. Its high utilisation rate indicates that Singaporeans have found the scheme useful and accessible.

Fast-Forward Help

5. Today, we launch the ninth tranche of the CDC Vouchers, which has been brought forward to this month for release, instead of January 2027. Each Singaporean household will receive \$500 in CDC Vouchers, which will be valid till 31 December next year.

- a. Half, or \$250 of the CDC Vouchers can be used at any of the 24,000 participating hawkers and heartland merchants, and
- b. The other \$250 at participating supermarkets.

6. The Government has brought forward the vouchers to provide immediate support and relief to Singaporeans as cost-of-living concerns have risen due to global uncertainties and the Middle East conflict. The early rollout will also boost our local economy and support our heartland merchants and hawkers.

7. This proactive move to boost and bolster our people and economy reflects our collective spirit of resilience and care as one people. In total, this year, each Singaporean household will receive \$800 in CDC Vouchers. This larger quantum will help Singaporeans lighten their daily expenses amid growing costs.

Supporting Our Singaporean Households

8. The CDC Vouchers Scheme is in addition to other cost-of-living support measures such as the U-Save rebates and Cost-of-Living Special Payments. Together, they form a critical safety net, especially for vulnerable Singaporean households.

SG60 Vouchers – Strong Spend

9. I am glad to share that we have also seen a strong take-up of the \$2.02 billion worth of SG60 Vouchers announced by Prime Minister Lawrence Wong during last year's Budget. These vouchers, which recognise the contributions of Singaporeans while also supporting them, are valid until 31 December 2026.

Let me provide an update:

- a. Among the 1.1 million eligible seniors who received \$800 in SG60 Vouchers, 95.1% have claimed their vouchers.
- b. About 89.7% of these vouchers has been spent:
 - i. With about \$380 million at participating hawkers and heartland merchants; and
 - ii. About \$370 million at participating supermarkets.
- c. Among the 1.9 million eligible adults who received \$600 in SG60 Vouchers, 98.2% have claimed their vouchers. To date, 83.7% of these vouchers has been spent – totalling approximately:
 - i. \$469 million spent at participating hawkers and heartland merchants; and
 - ii. \$468 million spent at participating supermarkets.
- d. I encourage those who have not spent their SG60 Vouchers to make full use of them before the vouchers expire at the end of this year.

Ensuring Access & Simplicity

10. A key part of vouchers' success is ensuring that every Singaporean household, including seniors, can use their vouchers easily and confidently. This is why the claim process remains simple, familiar and convenient.

11. I am glad to hear the story of Mr Sek Boon Chang, a 90-year-old senior who stays by himself. Having previously lost and misplaced his paper CDC Vouchers, he decided to learn from his daughter how to download and use digital CDC Vouchers. Today, Mr Sek spends his digital CDC Vouchers confidently at wet markets, supermarkets and clinics. He has greater peace of mind and enjoys his newfound skill.

Staple Support

12. Another appreciative resident is Mr James Ng, who has two young children and a baby. The combined SG60 and CDC Vouchers that he and his wife received were especially helpful in reducing their family expenses, particularly for buying infant formula milk, hawker meals and groceries.

Supporting Our Heartland Merchants

13. As Singaporeans spend their CDC Vouchers in the heartlands, local businesses get a boost in sales and greater exposure. Over 24,000 participating merchants and hawkers are on board the scheme today. The CDC Vouchers Scheme brings to participating hawkers and merchants a wider customer base and opportunities to connect with residents in their estate. Besides promoting footfall, the scheme has also spurred shopkeepers and hawkers to adopt technology and digital platforms, sparking growth for some.

14. As of 3 June 2026, more than \$4.64 billion has been spent across eight CDC Voucher tranches and two SG60 Voucher tranches covering both Seniors and Adults. Out of \$4.64 billion, \$2.43 billion (around 52%) was spent at heartland merchants and hawkers, and \$2.21 billion (around 48%) was spent at supermarkets.

15. Out of the \$2.43 billion spent at heartland merchants and hawkers:

- a. F&B - \$1.56 billion (64%)
- b. Retail & Services- \$534 million (22%)
- c. Supermart/ Minimart- \$339 million (14%)

Heartland businesses give back

16. Many heartland merchants have stepped forward to offer promotions and discounts to help Singaporeans stretch their CDC Vouchers.

17. For instance, the couple behind Bayshore Seafood at Woodlands Street 32 started a simple “Pay It Forward” initiative about a year ago. Needy residents can approach their stall to request a meal with no questions asked. The free meals provided by Mdm Evonne Goh and her husband are funded by caring neighbours in cash or CDC Vouchers. The couple is determined that no one in the community should go hungry. Stories like this reflect our Singapore spirit – where we look out for and care for one another.

Closing: Overcoming Together

18. While global headwinds continue to blow, we’re standing together as Team Singapore. The CDC Vouchers Scheme encapsulates our we-first spirit of mutual support – where government, businesses, community partners, volunteers, and Singaporeans close ranks, ensuring no one is left behind.

19. As Singaporeans claim and use the \$500 June 2026 CDC Vouchers, we do so in support of our local heartland hawkers, businesses and shopkeepers who serve us every day.

20. Even as the world grows more uncertain, we stand on the certainty of our collective unity. This is a valuable strength we have built over the years. We have each other's backs. And we will reach brighter shores, stronger and more resilient than before.

21. Thank you.
